## MAGNETIC FIELD DISTRIBUTIONS OF HIGH-TC SUPERCONDUCTORS

LAP Lambert Academic Publishing Jul 2016, 2016. Taschenbuch. Book Condition: Neu. 220x150x7 mm. This item is printed on demand - Print on Demand Neuware - The internal magnetic field distributions for a type II superconductor (a single crystal Y Ba<sub>2</sub>Cu<sub>3</sub>O<sub>7-d</sub>) with large normal non-conducting inclusions (Y<sub>2</sub>BaCuO<sub>5</sub>) are studied. A model based on the London Equations<sub>;</sub> has been successfully developed and applied to the interpretation of the  $\mu$ SR data on this system.<sub>;</sub> The temperature dependence of the magnetic field distributions in...

### Reviews

---

*Thorough guideline! Its this type of good read. It is really simplistic but shocks from the 50 percent from the publication. It is extremely difficult to leave it before concluding, once you begin to read the book.*

-- **Sallie Wiegand**

*This pdf is very gripping and fascinating. We have read and that i am certain that i am going to going to read once more again in the future. Once you begin to read the book, it is extremely difficult to leave it before concluding.*

-- **Burnice Cronin**
