

The Plato Code: The Impact of the Misconceived Greek Philosophia on the European Culture (Paperback)

Filesize: 8.03 MB

Reviews

A fresh e book with a new viewpoint. It is among the most awesome ebook we have read through. Once you begin to read the book, it is extremely difficult to leave it before concluding.
(Prof. Christelle Stark III)

THE PLATO CODE: THE IMPACT OF THE MISCONCEIVED GREEK PHILOSOPHIA ON THE EUROPEAN CULTURE (PAPERBACK)

Createspace, United States, 2014. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.The Plato Code extends The Socrates Code, which is the first book in a series of three, in which Peter Hubral dismantles today's understanding of the Pythagorean/Platonic philosophia, the mother of modern philosophy. He shows that its many Greek masters taught how to obtain extrasensory natural knowledge, which appears out of itself on what Lao Tzu calls in the Daodejing the Great Path (Da Dao) and Parmenides calls in his Poem on Nature the Path (Way) to Truth. This step-wise path from the known into the unknown provides prenatal knowledge based on the unconditioned cognition principle: Consciousness can be significantly expanded by rigorous meditative dedication to Nothingness (Nonbeing). The composite lion-bull motive on the front cover is an ancient Iranian allegory for this principle. The philosophia can, like the Dao-teaching of Fangfu, only be understood with it. This principle got lost to the West after the unwritten philosophia disappeared once and for ever in the Byzantine Empire. The consequence is that the written philosophia is ever since interpreted with the only cognition principle known today to the West: Being (familiar world) defines the consciousness. Its application to the written philosophia distorted the Greek wisdom and its ancient sources in the Middle East completely. It created the castle in the air that the author already largely destructs in The Socrates Code. He now shows in The Plato Code that the Western Culture has ironically mistook it to be the stronghold of western philosophy, science, art, literature and religion. He convincingly concludes that nothing could be more wrong in the history of the western culture and science than this.
