What others said about this book: Patient suffers from a severe mental disorder which, in his case, manifests itself by senility, panic attacks, demonic possession, mania, delusions and more. Subject also experiences adverse effects of the sustained intake of major tranquilizers and nootropics. He lacks awareness that his case is extreme and requires constant care and attention. Unable to live in society, approach with caution. Dr John Smith The book has been developed as a part of the project Mengele. It s a modern approach, experimenting with the most sick patients in a bid to understand schizophrenia better. Patients were told to write whatever they wanted. They were injected chips and received steroids with narcotics to stimulate their brain. Lusiak is patient no. 78.
