Reviews

This publication can be really worth a go through, and superior to other. It is amongst the most amazing publication we have go through. You wont feel monotony at anytime of your own time (that's what catalogues are for about when you request me).

(Ms. Elda Schaden MD)

INNOVATIVE CONCEPTS FOR AGENT-BASED SYSTEMS: FIRST INTERNATIONAL WORKSHOP ON RADICAL AGENT CONCEPTS, WRAC 2002, MCLEAN, VA, USA, JANUARY 16-18, 2002. REVISED PAPERS

DOWNLOAD

Springer. Paperback. Book Condition: New. Paperback. 482 pages. Dimensions: 9.2in. x 6.1in. x 1.1in. This collection represents the proceedings of the 1st GSFC/JPL Workshop on Radical Agent Concepts (WRAC), which was held on 16-18 January, 2002 at the Science Applications International Corporation (SAIC) Conference Center in McLean, VA, USA. Over the past few years, agent technology has emerged as a powerful force in computing. Agent technology may well form the foundation for the next generation of computing systems. New and innovative agent concepts and techniques may bring further developments to this exploding area of research. Such work is often strongly inspired by theoretical or empirical studies of human behavior, social intelligence, psychology, arts, biology, computer science and philosophy. This workshop aimed at bringing together, in an interdisciplinary event, original thinkers, practitioners and academics with an interest in radical (very - innovative) concepts for agent-based systems. The workshop provided a forum to present the latest research findings in many aspects of agent technology. The organizers welcomed participation by those working in agent architectures, agent communities, agent communications, agent modeling, agent applications and other agent-related areas. We were particularly seeking papers on novel and innovative ideas, pushing the envelope of current agent technology. Contributions without a prototype or working system, i. e. , purely conceptual contributions, were welcomed, and out-of-the-box thinkers were especially encouraged to participate. The workshop was structured so as to allow the participants adequate time for discussion and interaction, to exchange ideas and react on the motivations, scientific grounds and practical consequences of the concepts presented. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.
