RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 108 pages. Original publisher: Golden, Colo. : National Renewable Energy Laboratory, 2007 OCLC Number: (OCoLC)214325432 Subject: Wind power -- Economic aspects. Excerpt: . . . In comparison to the domestic market, three international market items stand out. First, small-scale community wind becomes a more dominant player in the world wind market, replacing the substantially increased off-grid market. Second, wind diesel applications become a stronger market element. Finally, residential wind diminishes in importance. Note that the table also presents the turbine size for each market segment while Figure E. 5 shows the expected number of installed units of each market segment, excluding the off-grid or small-system segment, which is expected to grow at more than 150, 000 units per year in 2020, and distorts the impact of the other market segments. The largest sector in terms of the number of installed units is the off-grid or small-scale remote power market segment; however, the...
