Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1862 edition. Excerpt: .wood is used by the Burmese for posts of houses and cart-framing; from its color and texture it is an excellent wood for furniture; cordage manufactured from the bark is used in India as slow match, by matchlock men. 3. Characteristics and uses.--The tree, with its pyramidal head and the branches, terminating in large panicles of gold-colored flowers, adds not a little to the appearance of the gardens in Madras during the months of November and December, and while it grows to a moderate size in Madras (from 10 to 25 feet in height, and from 1 to 3 feet in girth) it is said to attain a larger size in the Burman country; and according to Captain Dance's Report, logs having a maximum girth of 4 cubits and 30 feet in length are procurable. The leaves are equally pinnated with 5 to 10 pairs...
