

## The Little Book of Cloud Computing Security, 2013 Edition (Paperback)

---

By Lars Nielsen

New Street Communications, LLC, United States, 2013.  
Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Completely updated for 2013, this new edition of the bestseller provides lay readers with a concise, to-the-point, up-to-date, no-nonsense introduction to the fundamental security issues confronting those enterprises who have moved, or are considering a move, to the Cloud. In a jargon-free approach that assumes little prior knowledge, Lars Nielsen explores both the advantages and the pitfalls of various options in order to provide the very best data by which enterprises can make informed decisions about how to proceed with their own Cloud security paradigms. CONTENTS: Introduction \* Fear and Loathing in the Cloud \* Rudiments \* Cloud Security Alliance, the CSA GRK Stack, and STAR \* Open Data Center Alliance (and Cooperation with CSA) \* Microsoft's Free Cloud Security Readiness Tool \* Cloud Standards Customer Council, and the Question: Which Standards Organization Will Prevail? \* Federal Risk and Authorization Management Program (FedRAMP).

### Reviews

*The best book i at any time read. I am quite late in start reading this one, but better then never. I realized this publication from my dad and i advised this book to understand.*

-- **Raina Simonis**

*A very amazing publication with perfect and lucid information. We have read through and that i am certain that i will planning to study once more yet again in the future. You will not really feel monotony at anytime of the time (that's what catalogues are for about should you question me).*
