The idea of presenting such an array of facts, that makes of the book one neither entirely for private circulation, nor yet one solely for public distribution, first occurred to the writer about ten years ago, when after gathering much genealogical matter, for the main branch of the family, it was found that it was so involved with, and a part of, the pathetic, beautiful and romantic history, of the Huguenots and Palatines of the old world, thousands of whom were subsequently the founders of interior southeastern Pennsylvania and parts of other States, that it was next to impossible to divorce the one from the other. The early settlers of Pennsylvania were not a showy race, they were plain and unassuming people, but they made history and it seemed incumbent upon the author to transmit and preserve it. We are the descendants of French and German ancestry. There are those who are inately ashamed of their descent and have a horror of being counted among the Pennsylvania Germans. We are not of these. We are proud of our birthright. We have the homely treasure of a dialect peculiarly our own and we glory in its quaint figures of speech, so largely corrupted with the English, that as a sub-language or idiom it must soon be relegated to the archives of the past. The Pennsylvania Germans and Huguenots were mainly husbandmen and tillers of the soil. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more...
