Bloomsbury Publishing PLC. Paperback. Book Condition: new. BRAND NEW, Global Competition Law and Economics (2nd Revised edition), Damien Geradin, Einer Elhauge, This is the second edition of the acclaimed text on global antitrust law. With markets becoming increasingly global, mergers requiring approval in several different jurisdictions, cartels in one nation affecting supply in others, and countries increasingly entering into treaties with each other about the content or enforcement of competition laws, antitrust law is now a truly global phenomenon. Modern antitrust law is also different because it now reflects an increasingly economic approach to analysing antitrust and competition policy. This innovative work is the only truly comparative and economically sophisticated casebook on the market. Addressed to students from all jurisdictions having competition laws, this casebook provides an in-depth analysis of the two major global antitrust regimes in the world, as well as a summary of selected national antitrust laws. As such it will also serve as a useful reference for practitioners, competition officials and policy-makers interested in competition law. In the four years since the first edition, the increased globalization of antitrust law has continued apace. China, the world's third largest economy after the EU and US, has adopted an antitrust law and other nations have modified and modernized their antitrust regimes. The EU has adopted a new EU Treaty, new EU guidelines on abuse of dominance, new EU guidelines on non-horizontal mergers, and new EU regulations and guidelines on vertical agreements. In the US there have been important new Supreme Court cases (the 2009 *Linkline* and 2010 *American Needle* decisions) and the appearance of a new economic approach in the revised 2010 U.S. Merger Guidelines. This new edition expands and updates the pioneering approach of the first edition, addressing new developments not only in the US and EU, but...
