Reviews

This composed pdf is great. This can be for all those who statte that there was not a well worth looking at. I am just happy to explain how this is actually the finest pdf we have go through inside my own daily life and could be he greatest publication for ever.
(Conrad Heaney)

INTRODUCING ENGLISH LINGUISTICS: FROM TEXT TO SOUND

[DOWNLOAD](#)

Cambridge University Press. Paperback. Book Condition: new. BRAND NEW, Introducing English Linguistics: From Text to Sound, Charles F. Meyer, Are you looking for a genuine introduction to the linguistics of English that provides a broad overview of the subject that sustains students' interest and avoids excessive detail? Introducing English Linguistics accomplishes this goal in two ways. First, it takes a top-down approach to language, beginning with the largest unit of linguistic structure, the text, and working its way down through successively smaller structures (sentences, words, and finally speech sounds). The advantage of presenting language this way is that students are first given the larger picture - they study language in context - and then see how the smaller pieces of language are a consequence of the larger goals of linguistic communication. Second, the book does not contain invented examples, as is the case with most comparable texts, but instead takes its sample materials from the major computerised databases of spoken and written English, giving students a more realistic view of language.
